Report of Superintendent of Schools

To the School Board and Citizens of Northwood:

Herewith, I present my fifth annual report as superintendent of your public schools, together with the usual school statistics.

During the year ending August 31, 1920, the schools of the town were all maintained, as is now required by law, for a period of thirty-six weeks. During this time your superintendent has made a total of 111 visits. At these visits, as formerly, various classes have been examined to see what progress has been made and the work and appearance of the school in general has been noted. I believe that for this year the town obtained full value for the money paid out for instruction.

At the close of the school year in June thirteen pupils were given certificates of graduation from the eighth grade. Twelve of these are now continuing their work at Coe's Academy.

The recommendations made in last year's report still hold good for this year.

That the schools are doing somewhat more work than formerly is attested by the fact that four years ago, a large percentage of the first grade pupils usually remained for a second year in the first grade.

At the present time a very small percentage remain for a second year in the first grade. Also I was informed, four years ago by your Academy Headmaster that many of the grammar school graduates came to his school with somewhat deficient preparation in their elementary subjects. At the present time I think

that the majority of the pupils enter the Academy well grounded in the common school subjects.

Respectfully submitted,

W. S. ADAMS.
